Screenshot Tour of Common Adobe Connect Features:

The screenshot shows the Adobe Connect interface for a meeting titled "South Central Regional Library Council (Collaboration) - Adobe Connect". The "Pods" menu is open, showing options like Share, Notes, Attendee List, Camera and Voice, Chat, Files, Web Links, Poll, Q & A, Move and Resize Pods, and Manage Pods... A red box highlights the "Pods" menu and a text box in the center says: "Add Pods for common features like Screen sharing, attendees, notes, chat, and file sharing to see these features and more". Red arrows point from this text box to various parts of the interface: the Attendee List, Notes, Chat, and Files pods. The interface also shows a "Share My Screen" button, a "Web Links" pod with a URL, and a "Files" pod with a table structure.
